**2017 H Road Drainage Improvement Project**  
**INSTRUCTIONS TO BIDDERS**

---

**1. Defined Terms**

The term "Bidder" means one who submits a Bid directly to Owner, as distinct from a sub-bidder, who submits a bid to a Bidder. The term "Successful Bidder" means the lowest, qualified, responsible and responsive Bidder to whom Owner (on the basis of Owner's evaluation as hereinafter provided) makes an award. The term "Bidding Documents" includes the Advertisement or Request to Bid, Instructions to Bidders, the Bid Form, and the proposed Contract Documents (including all Addenda issued prior to receipt of Bids).

**2. Copies of Bidding Documents**

2.1) Complete sets of Bidding Documents must be used in preparing Bids. The Owner does not assume any responsibility for errors or misinterpretations resulting from the use of incomplete sets of Bidding Documents.

2.2) Owner, in making copies of Bidding Documents available on the above terms, does so only for the purpose of obtaining Bids on the Work and does not confer a license or grant for any other use.

**3. Qualifications of Bidders**

The Owner may make such investigations as he deems necessary to determine the ability of the Bidder to perform the Work, and to demonstrate qualifications to perform the Work. Each Bidder must be prepared to submit within five days of Owner's request written documentation of relevant experience with reference to a minimum of three (3) projects of similar scope and size. Statement shall include equipment and manpower available for utilization on project. Each Bid must contain evidence of Bidder's qualification to do business in the state where the Project is located or covenant to obtain such qualification prior to award of the contract. The Owner reserves the right to reject any Bid if the evidence submitted by, or investigation of, such Bidder fails to satisfy the Owner that such Bidder is properly qualified to carry out the obligations of the Contract and to complete the Work contemplated therein.

**4. Examination of Contract Documents and Site**

4.1) It is the responsibility of each Bidder before submitting a Bid, to (a) examine the Contract Documents thoroughly, (b) visit the site to become familiar with local conditions that may affect cost, progress, performance or furnishing of the Work, (c) consider federal, state and local Laws and Regulations that may affect cost, progress, performance or furnishing of the Work, (d) study and carefully correlate Bidder's Observations with the Contract Documents, and (e) notify Engineer of all conflicts, errors or discrepancies in the Contract Documents.

4.2) Information and data reflected in the Contract documents with respect to Underground Facilities at or contiguous to the site are based upon information and data furnished to Owner and Engineer by owners of such underground facilities or other, and Owner does not assume responsibility for the accuracy or completeness thereof unless it is expressly provided otherwise in the Special Conditions.

4.3) Before submitting a Bid, each Bidder will, at Bidder's own expense, make or obtain any examinations, explorations, tests and studies and obtain any information and data which pertain to the physical conditions (surface, subsurface and Underground Facilities) at or contiguous to the site or otherwise which may affect cost, progress, performance or furnishing of the Work and which Bidder deems necessary to determine its Bid for performing and furnishing the Work in accordance with the time, price and other terms and conditions of the Contract Documents.

4.4) On request in advance, Owner will provide each Bidder access to the site to conduct such explorations and tests as each Bidder deems necessary to submission of a Bid. Bidder shall fill all holes, clean up and restore the site to its former condition upon completion of such explorations.

4.5) The lands upon which the Work is to be performed, rights-of-way and easements for access thereto and other lands designated for use by Contractor in performing the Work are identified in the Contract Documents. All additional lands and access thereto required for temporary construction facilities or storage of materials and equipment are to be provided by Contractor. Easements for permanent structures or permanent changes in existing structures are to be obtained and paid for by Owner unless otherwise provided in the Contract Documents.

4.6) The submission of a Bid will constitute an incontrovertible representation by Bidder that Bidder has complied with every requirement of this Article 4, that without exception the Bid is premised upon performing and furnishing the Work required by the Contract Documents and such means, methods, techniques, sequences or procedures of construction as may be indicated in or required by the Contract Documents, and that the Contract Documents are sufficient in scope and detail to indicate and convey understanding of all terms and conditions for performance and furnishing of the Work.

4.7) **General Scope of Project:** Owner is accepting bids from qualified Contractors to improve the drainage along 1.4 miles of H Road extending from Stafford Rd to 1800 Rd. The City of Delta may award any or all of the following proposed drainage improvements as part of the accepted Bid. Specific locations of each drainage improvement will be identified at the pre-bid meeting. The contractor shall provide all labor, tools, material and equipment to complete the work, including traffic control and notifying residents of construction activities. Work shall be performed Monday through Friday.

**Pipe Seep Ditch:** Current seep ditch passes between H Rd and fiber & telephone boxes. Traffic control, materials, coverage and bedding to pipe the seep ditch

east of Hillcrest and H Rd intersection behind and around boxes day lighting back to open ditch.

**Clearing and Grubbing:** Remove vegetation and debris along H Rd south shoulder ditch 15 ft off edge of asphalt. Traffic control and hauling away of material from drainage is to be included.

**Hillside Stabilization:** Hillside exposure during clearing and grubbing requires bank stabilization with traffic control, 4:1 sloping, fabric & rip rap placement. City shall provide geo-grid & concrete if necessary.

**Ditch Stabilization:** North side ditch bank stabilization with traffic control, fabric & rip rap placement to repair scouring of road shoulder. City shall provide geo-grid & concrete if necessary.

## 5. **Interpretations and Addenda**

5.1) All questions about the meaning or intent of the Contract Documents are to be directed to the Engineer. Interpretations or clarifications considered necessary by Engineer in response to such questions will be issued by Addenda mailed or delivered to all parties recorded by Engineer as having received the Bidding Documents. Questions received less than five (5) days prior to the date for Opening of Bids may not be answered. Only questions answered by formal written Addenda will be binding. Oral and other interpretations or clarifications will be without legal effect.

5.2) Addenda may also be issued to modify the Bidding Documents as deemed advisable by Owner.

**6. Conditions of Work**

Each Bidder must inform himself fully of the conditions relating to the construction of the project and the employment of labor thereon. Failure to do so will not relieve a successful Bidder of his obligation to furnish all material and labor necessary to carry out the provisions of his Contract. Insofar as possible, the Contractor, in carrying out his Work, must employ such methods or means as will not cause any interruption of or interference with the Work of any other Contractor or danger to the public.

**7. Substitute or “Or-Equal” Items**

The Contract, if awarded, will be on the basis of materials and equipment described in the drawings or specified in the specifications, without consideration of possible substitute or “or-equal” items. Whenever it is indicated in the drawings or specified in the Specifications that substitute or “or-equal” items of materials or equipment may be furnished or used by Contractor if acceptable to Engineer, application for such acceptance will not be considered by Engineer until after the effective date of the Agreement.

**8. Subcontractors, Suppliers and Others**

**8.1)** The Owner may require the identity of certain Subcontractors, Suppliers and other persons and organizations (including those who are to furnish the principal items of material and equipment) to be submitted to Owner in advance of the specified date prior to the Effective Date of the Agreement. The apparent Successful Bidder and any other Bidder so requested shall, within three days after the Bid Opening, submit to Owner a list of all such Subcontractors, Suppliers and other persons and organizations proposed for those portions of the Work for which such identification is required. Such list shall be accompanied by an experience statement with pertinent information regarding similar projects and other evidence of qualification for each such Subcontractor, Supplier, person or organization if requested by Owner. If Owner, after due investigation, has reasonable objection to any proposed Subcontractor, Supplier, other person or organization, Owner may, before Notice of Award is given, request the apparent Successful Bidder to submit an acceptable substitute without an increase in Bid price.

**8.2)** If apparent Successful Bidder declines to make any such substitution, Owner may award the contract to the next lowest Bidder that proposes to use acceptable Subcontractors, Suppliers and other persons and organizations.

**8.3)** If requested by Owner, the apparent Successful Bidder will, within three days after the Owner's request, identify, in writing to Owner, those portions of the Work that such Bidder proposes to subcontract and after the Notice of Award, may only subcontract other portions of the Work with the Owner's written consent.

## **9. Bid Form**

**9.3)** Bids by corporations must be executed in the corporate name by the president or a vice president (or other corporate officer accompanied by evidence of authority to sign) and the corporate seal must be affixed and attested by the secretary or an assistant secretary. The corporate address and state of incorporation must be shown below the signature.

**9.4)** Bids by partnerships must be executed in the partnership name and signed by a partner, whose title must appear under the signature, and the official address of the partnership must be shown below the signature.

**9.5)** All names must be typed or printed below the signature.

If the Bid has been sent through the mail or other delivery system, the sealed envelope shall be enclosed in a separate envelope with the notation "BID ENCLOSED" on the face of it. Any submission received after the advertised Bid Opening shall be returned unopened to the sender.

## **11. Modification and Withdrawal of Bids**

**11.1)** Bids may be modified or withdrawn by an appropriate document duly executed (in the manner that a Bid must be executed) and delivered to the place where Bids are to be submitted at any time prior to the Opening of Bids.

**11.2)** If, within twenty-four (24) hours after Bids are opened, any Bidder files a duly signed, written notice with Owner and Engineer and promptly thereafter demonstrates to the reasonable satisfaction of Owner and Engineer that there was a material and substantial mistake in the presentation of its Bid, that Bidder may withdraw its Bid.

## **12. Bids to Remain Subject to Acceptance**

All Bids will remain subject to acceptance for sixty (60) days after the day of the Bid Opening, but Owner may, in its sole discretion, release any Bid prior to that date.

## **13. Award of Contract**

**13.1)** Owner reserves the right to reject any and all Bids, to waive any and all informalities not involving price, time or changes in the Work, and the right to disregard all nonconforming, nonresponsive, unbalanced or conditional Bids. Also, Owner reserves the right to reject the Bid of any Bidder if Owner believes that it would not be in the best interest of the Project to make an award to that Bidder, whether because the Bid is not responsive or the Bidder is unqualified or of doubtful financial ability or fails to meet any other pertinent standard or criteria established by Owner. Discrepancies in the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.

**13.2)** In evaluating Bids, Owner will consider the qualifications of the Bidders, whether or not the Bids comply with the prescribed requirements, and such alternates, unit prices and other data, as may be requested herein and/or in the Bid Form or prior to the Notice of Award.

**13.3)** Owner may consider the qualifications and experience of Subcontractors, Suppliers, and other persons and organizations through the request of written documentation of relevant experience with reference to a minimum of three (3) projects of similar scope and size. Statement shall include equipment and manpower available for utilization on project. Owner also may consider the operating costs, maintenance requirements, performance data and guarantees of major items of materials and equipment proposed for incorporation in the Work when such data is required to be submitted prior to the Notice of Award.

**13.4)** Owner may conduct such investigations as Owner deems necessary to assist in the evaluation of any Bid and to establish the responsibility, qualifications and financial ability of Bidders, proposed Subcontractors, Suppliers, and other persons and organizations to perform and furnish the Work in accordance with the Contract Documents to Owner's satisfaction within the prescribed time.

**13.5)** If the contract is to be awarded, it will be awarded to the lowest Bidder whose evaluation by Owners indicates that the award will be in the best interests of the Project.

**13.6)** If the contract is to be awarded, Owner will give the Successful Bidder a Notice of Award within sixty (60) days after the day of the Bid Opening.

## **14. Laws and Regulations**

The Bidders' attention is directed to the fact that all applicable State laws, municipal ordinances, and the rules and regulations of all authorities having jurisdiction over construction of the Project shall apply to the Contract throughout, and they will be deemed to be included in the Contract the same as though herein written out in full.

**15. Complete Prices**

**15.1)** All lump sum, alternate, and unit prices must include all required General Conditions line items necessary to complete the Work, including, but not limited to the following (as required): all permits, insurance, supervision; layout and survey as needed; equipment and personnel; off-site management and administrative assistance; trash disposal to a separate dumpster; miscellaneous equipment; materials; traffic control; mobilization; as-built drawings; fuel, watchmen, flagmen, and site security; scheduling; small tools; drawings and printing expenses and mailing costs.

**15.2)** On bid items to be paid as lump sum that may extend beyond a single pay estimate, a schedule of values shall be submitted to OWNER a minimum of 10 days prior to commencement of Work. Adequate detail shall be given to allow a value to be placed on Work completed during any given pay estimate.

**16. Permits and Fees**

Fees for permits and inspections directly related to this construction will be paid by the BIDDER; however, no tap fees or access charges for this or subsequent Work will be the responsibility of the BIDDER. City has Tax Exemption, a copy of which will be provided to the Contractor. Contractor and all subcontractors shall hold a current license to perform Work in the State of Colorado.

**17. Authorities**

Special Conditions included herein supplement the City of Delta's Standards and Specifications for the Design and Construction of Public Improvements and take precedence. Work shall be completed as per these specifications and accepted by the Owner or proper agencies having jurisdiction before final payment is requested of the Owner.

**18. Completion of Work**

Work shall be completed as per the City of Delta's Standards and Specifications for the Design and Construction of Public Improvements and accepted by the Owner or proper agencies having jurisdiction before final payment is requested of the Owner. Contractor shall provide a daily estimate of progress to the City Engineer or City representative to verify quantities and that we shall stay within the contracted price. The City shall not pay for Work above the contract price. Contractor is responsible to keep City crews informed and anticipate no nearer than a 48 hour pre-sweeping of the indicated streets. Lack of informing the City with sufficient time to schedule that require City crews to re-sweep, or adjust schedule based on too-short of notice may warrant back charges to the contractors final pricing. Therefore, the contractor shall provide a weekly anticipated schedule the Thursday before the next week's Work.

**19. Signing of Agreement**

When Owner gives a Notice of Award to the Successful Bidder, it will be accompanied by the required number of unsigned counterparts of the Agreement with all other written Contract Documents attached. Within ten business days thereafter, Contractor shall sign and deliver the required number of counterparts of the Agreement and attached documents to Owner with the required Bonds. Within ten business days thereafter, Owner shall deliver one fully signed counterpart to Contractor.

**20. Sales and Use Taxes**

Owner is exempt from Colorado State Sales and Use Taxes on materials and equipment to be incorporated in the Work. Said taxes shall not be included in the Contract Price.

**21. Local Contractor Preference**

**21.1)** Whenever competitive bidding is required by law for any contract involving materials, services and/or labor furnished to the City of Delta, preference shall be given to each qualified local business.

**21.2)** A qualified local business means an individual or entity who, at the time of submitting a bid for a contract relating to a City of Delta purchase or Work project, (1) currently maintains one or more fixed business offices or taxable distribution points located within Delta County, Colorado, (2) has a pre-established mailing address, other than a mere post office box, also located in Delta County, Colorado and (3) employs an adequate number of local residents to perform the preponderance of Work required by the pertinent contract for supplying materials, services and/or labor to the City.

**21.3)** In the course of evaluating bids or proposals pertaining to any contract for the purchase or lease of supplies, materials, equipment, or other personal property and/or any contract for labor to be performed on a public Works project and/or any professional services contract, the City will strive to extend an eight percent (8%) preference, but not to exceed One Hundred Thousand Dollars (\$100,000.00), to each otherwise eligible contract bidder who sufficiently demonstrates ownership of a qualified local business in the related bid proposal documents. It is provided, however, that when applying this provision to specific contract settings, the City will continue to give appropriate consideration and weight to all other relevant information and factors customarily used for comparison of bids in the process of selecting the lowest responsible bidder including, but not limited to the following:

- a) The relative quality of any proposed material items and their conformity with pertinent contract specifications
- b) The relative benefit to the City of proposed delivery and discount terms and conditions and proposed terms of warranty and repair for material items
- c) The overall experience, qualification and reputation of the bidder for performance of similar contracts, etc.
