

DELTA *Community* GARDEN

Why a Community Garden ?

Why not? As a community we need to keep helping our planet. Together we can learn sustainably and continue to grow and learn. Community gardens can enrich family and promote community engagement. Gardens provide opportunities to teach future generations of gardeners and farmers, and support native cultures, plants, and pollinators.

Our Vision:

Our vision is to support and promote garden education and healthy eating in Delta County. We believe that, through hand on hand education, we can help the community build skills to become more self-reliant and provide healthy food options for their families. To provide a safe, peaceful, and educational environment for individuals and businesses to share their knowledge and expertise as it pertains to horticulture, composting, pollination and sustainable food production.

Thank you sponsors:

The garden can only be realized through the hard work of individuals, businesses and families in this beloved community. By coming together we are building something beautiful. With your generous donation we can allow kids and adults to come and learn our nature's bounty of fresh produce and community love.

Thank you to those who have already begun to support ...

Delta City Council and the City of Delta Parks Department

Thank you Delta County Board of Realtors for your generous donation to protect our garden.
